

Hariti Asmaa

Software engineer

🔗 LinkedIn Link ✉️ haritiasmae@gmail.com ☎️ +212 663-470466

I am a skilled web developer specializing in PHP,Laravel, Vue, JavaScript, and Tailwind CSS. With expertise in both front-end and back-end development, I thrive in the dynamic and ever-evolving web industry. I leverage PHP and Laravel to build robust web applications, while utilizing JavaScript and Vue to create interactive user interfaces. My proficiency in Tailwind CSS ensures responsive and visually appealing designs. With a passion for continuous learning, I stay updated with the latest technologies, enabling me to deliver innovative solutions in today's fast-paced web development landscape.

Experience

Gold Tech - gold tech technology Jul 2023 - August 2023
Full Stack Web Developer (PHP)

As a Laravel developer specializing in crafting dynamic web solutions, I've undertaken the challenge of creating a robust restaurant reservation system. Leveraging Laravel's powerful features, I meticulously designed a database schema to encompass crucial entities like restaurants, tables, reservations, and users. Authentication and authorization functionalities were seamlessly integrated, empowering both customers and restaurant staff with secure access to the system.

Oumdin - Oumdin May 2023 - August 2023
Backend Developer

I spearheaded the creation of TOUBKAL, a wholesale purchasing platform in Morocco, leveraging .NET and Angular. It boasts secure access, seamless ordering, and efficient inventory management for wholesalers, ensuring a streamlined procurement process.
